Case Management, Adolescents, Adults, Families, Business**

GREETINGS

Nathan Fears And Associates is committed to saving lives. Drugs have become endemic in our society. It threatens the very fabric of our society. It presents the largest health dilemma in our country; more than cancer, more than aids, more than heart disease. It destroys individuals, families and communities. Our mission is to encourage and stimulate understanding, awareness, compassion and opportunity to all who face this massive yet treatable disease. Nathan Fears And Associates provides individual and family interventions, assessments, consultations, treatment placement, parenting skills development and case management. We monitor our clients for a minimum of 18 months post treatment. If you or a loved one suffers from this deadly disease, please contact us. We provide the utmost in comprehensive care. We are dedicated to helping you save a life - a loved one or your own.

PHILOSOPHY

Taking the initial step to seek help is the most important step to recovery. Whether for yourself or a loved one, no help can be given unless it is sought. We provide the necessary information, education and guidance. Our dedicated staff is highly skilled and trained to provide the most comprehensive care available.

Nathan Fears - MA, CACIII is a dedicated, experienced, professional with 25 years in the health-care industry. He has developed, implemented and managed adolescent and adult treatment programs for the most recognized health service corporations in the nation. He has co-authored several publications on drugs and treatment modalities; edited a major television movie,
